

Full-Sack Web developer

Shedyy Mboya

✉ shedyy708@gmail.com

Personal statement

I am a passionate Full-Stack Developer with a strong foundation in JavaScript and Python specializing in building responsive functional and user-focused web applications. I have experience developing modern front-end interfaces using HTML CSS and JavaScript while using Python and Flask to build backend systems APIs authentication and database-driven applications.

I enjoy turning real-world problems into practical software solutions and continuously improving my skills through hands-on projects and problem-solving. I am comfortable working across both the frontend and backend connecting user interfaces to server-side logic and databases to create complete web applications.

I am a motivated and adaptable developer who values clean code continuous learning and building solutions that create real impact. My goal is to grow as a professional Full-Stack Developer while contributing to meaningful projects and gaining experience working with modern technologies and development practices.
